Hong Kong | shreeniketbhat07@gmail.com | +852 5685 1161

SAT Super Score: 1540 (Math 790 // English 750)

Incoming Freshman for Fall 2026: Georgia Tech - Industrial Engineering (Rank 1)

- Also secured offer letters from UC Berkeley, UCLA, UCSD, UIUC, University of Washington-Seattle, HKUST T&M-DDP (with Scholarship), HKU Data & Systems Eng (+MSc in AI) (with scholarship), Other US Universities

Education, Leadership, & Awards

Stamford American School, Grade 11-12

August 2024 - Present

IB Diploma Program

- **Predicted 45/45 IB score with A in TOK and EE**
- **Challenging 4 HL's (Math AA, Physics, Business Management, Design Tech)**
- **Shortlisted as Top 50 for Hong Kong Youth STEM Talent Award after rigorous screening & interview; single non-native student awarded.**
- **General Scholarship: 50% tuition (130,000HKD) offset after screening & interview, 3 recipients (of 800+)**
- Extended Essay: Combined Design Tech & Business for multidisciplinary analysis of smart green building technology deployments in the commercial property market.
- School Student Council – Organising and volunteer running student events; Assisting yearbook design.
- School Awards: Lion Pride Award & CAS Global Citizen by teacher recommendation
- Co-leading Business Club – inviting guest speakers and teaming up with peers on business competitions.
- Volunteer school event photographer
- Academic Honor Roll + Distinction

Northwood School, Lake Placid, NY, Grade 11

August 2023 - May 2024

American High School Credits, with APs. Soccer Scholarship for Black Rock Residential Academy.

- **Rank 1 – 4.0 unweighted, 4.82 weighted GPA (out of 4.0).**
- **Inducted into Cum Laude Society and Dean's list.**
- 3 AP (only 5 offered), 2 advanced college credits, 1 honors, and 1 regular course. 6 of 7 STEM-related.
- **School Robotics Team (6300)** – collaborated on, designed, & programmed robot that won 3rd in South Florida Regional and 4th in NY Tech Valley Regional (2024); programmed “gyrodrive” for self-straightening autonomous routine; VsCode Java
- **Adv. STEM (college credit) project** – developed pneumatic-actuated soft robotic gripper for fruit harvesting optimization, presented in Lake Placid exhibition.
- Mathematics Curriculum Award and Bowdoin Book Award for Innovation and Service
- Treasurer of Multicultural Student Club – Budgeted, organized guest speaker, formal dinner, holiday events
- Founded Math and Science Tutoring Club (MaST) for peers – Supported student-athletes with advanced math and physics.
- Blue Key Society – Volunteered for training, giving guided campus tours to prospective families.
- AP Scholar Award

King George V School, Hong Kong, Grade 6-10

August 2018 - June 2023

MYP and IGCSE Program

- **Top 4 of ~250 Student Cohort for International IGCSE results (2023) – 10 A* or 9 (all ten subjects)**
- **Highest Marks in Asia for IGCSE exam in Design Technology + School Curriculum Award**
- KGV School Speech Day (2021) – Spanish + English Curriculum Awards
- KGV School Speech Day (2020) – Michael Guilford Memorial Prize for History.

- KGV School Speech Day (2019) – Design Technology (DT) Curriculum Award.

Extra-curricular and Work Experiences

Harvard Undergraduate Ventures-TECH Summer Program (with US\$2k Scholarship)

Summer 2025

Technical Product Intern – AI/ML Workflow & Data Pipeline Automation for Energy Operations

- Selective screening & interview process (<15% acceptance)
- Researched, mapped key workflows (data entry, reporting, compliance) for energy firms.
- Identified critical bottlenecks and user pain points through process deconstruction and persona development.
- Engineered and documented data cleaning and validation pipelines using Python (Pandas), enabling automatic standardization and ingestion of multiformat datasets.
- Built and pitched high-fidelity Figma SaaS dashboard prototype enhancing workflows with regression, anomaly detection, and AI reporting features, with focus on intuitive UX, auditability, and data visualization.

Full-time (9-7) Internship at TradeLink Technologies | Professional Services Assistant

June - July 2025

- Got an opportunity from HK's managing director at a career fair; demonstrated interest in Industry 4.0 and supply chain analytics.
- Shadowing PS Team – partook in team and client meetings, interacted with technical, Business Intelligence (BI), & Applied Artificial Intelligence (AAI) teams.
- Usability testing of mLinkOne software UI/UX - designed enhanced mockups for both advanced (guided AI robot) and manual packing workflows.
- KPI - Tasked with manual data validation experiment, comparing TradeLink AI software program efficiency against human effort to help secure investor funding; used Parent-Child data sets and PivotTables to analyze PO data identifying inaccuracies; applied & gained excel data skills.
- Worked with and learned directly from Industrial Engineering and Business mgmt. degree holders.

Hong Kong Academy for Gifted Education (HKAGE) & HKU Academy for the Talented

2022 - Present

- Participating in workshops, enrichment programs, & competitions, collaborating with peers.
- Invited after screening (only top 2-5% of HK students invited)
- Funded & supported by the Education Bureau of HK Govt. & Hong Kong University, respectively.

Junior Academy of New York Academy of Sciences (NYAS) Global STEM Research

2022 - Present

- Competing in global challenges with international students.
- **Winner of Spring 2024 "Wearable Technologies" Challenge**; 170 teams. Proposed AR and AI-based smart glasses for older dementia patients, fostering independence and reducing caretaker burden.
- **Runner-up Team of Fall 2022 "Green Redesign Improving Energy Efficiency Using 5G and IoT"** amongst ~100 global teams. Proposed self-sufficient farm and greenhouse using 5G & IoT.
- **Led global team to Top 10 Distinction for Spring 2025 "Living in Extremes Challenge"**; 170 teams; proposed self-sustaining human settlement plan for extreme desert; smart microgrid as backbone; worked closely with 5 industry mentors.
- Fall 2024 "Waste Management" Challenge - Led global team of new members, proposing incentive-based app solution for clothing industry waste management.

HK Science Fair Project

2024 - 2025

- Led group of four, proposing an modular "AC Greenhouse" system.
- Researching feasibility, CAD modelling, 3D printing, material testing, and video presentation of solutions.

Sports Achievement - International + National Level

Football

2013 - Present

- Scholarship to Black Rock Residential Academy at Northwood School. 12+ hrs weekly commitment (excluding additional travel time between states on weekends > 15 hrs/week)

- Currently, KCC Knights in the Men's Yau Yee League.
- Boxing Day Match – Top players selected from all HK teams 2016-22
- School Football Team at each school
- Awarded Player of the Year for KCC Knights, as well as Young Player of the Year across all KCC's Men's teams (Season 2022-23) after promotion to Division 1.
- Kitchee Academy (top youth academy) – Top Scorer 2016-17, Merit Award 2015-16
- Awarded MVP or Top Scorer every season for KCC
- Schacter Sports/World Selection Week in Germany (February 2020) – 10 International Players Scouted to train and play against youth German teams (Eintracht Frankfurt, Bayern Leverkusen, Karlsruher, etc).

Tennis

- Selected for the HK National Training Squad for Tennis from age 10-14, and represented HK.
- Ranked 89th in Asia - ATF Junior Tennis Ranking U14 Boys (3/4/2019)
- KGV – Varsity Tennis Vice Captain
- HKTA Community Junior Tennis Competition 3 (2019) – Boys' U12 Singles Runner-up
- HKTA Community Junior Tennis Competition 1 (2019) – Boys' U12 Singles Runner-up
- HKTA Junior Series (2019) – Boys' 12 & Under Doubles Runners-up

Others

- Rugby – Player of the Season for USRC (2017)
- Athletics – limited to school sports days and cross-country events.
- Various team awards such as Runner-up and Winner of tournaments and various individual awards each season as MVP or Top scorer for various teams.

Volunteering

Breadline.hk, HKFoodWorks

2024 - Present

- Collecting surplus bread (approaching expiry dates) from bakeries/stores to distribute to poor, homeless, and underprivileged communities in HK.
- Weekly basis, ~ 2 hours every week, 51 "runs" (to stores) and 206 packages delivered.

Children or Education-related

2023 - Present

- Taught preschool children and assisted teachers at St. Agnes Elementary School for a week (8am-5pm) for the summer of 2024, in New York.
- Volunteer running the Tennis Booth for New Year's KCC Children's Sports Day, 12:00-5:00pm, 2023 - 2025.
- Taught English, Art, and PE to underprivileged 4th graders in Nyushu Village, China. 1 week.

Research Team Manager Volunteering for Celer HK (NGO) - celer.hk

2024 - Present

- Each week researched & published 3 EC opportunities for high schoolers; coordinated research teams & collaborated with marketing department and founders.
- Co-led sessions for the school "Career Day"; prepared groups of 20 students (G6-11) for productive summer planning, early extra-curricular engagement, and development of interests.

First Aid Certified (CPR and AED) by First Aid International

Volunteering for Array of School Community (& Student Council) Events

Additional Proficiency, Skills, & Self-learning

Technical, Programming, AI/ML related

- Python, Pandas, Jupyter Notebooks, Figma, ETL scripting, data visualization, Kaggle, & OpenEI datasets.

Online Courses for Personal Enrichment (Free EdX professional subscription awarded by NYAS)

- Successfully completed EMS001x: Semiconductors for Beginners (NUS) and Engineering Design and Simulation 1 and 2 (MathWorks) – Using MathWorks software to simulate Quadcopter flight.
- Currently on CS50's Introduction to Computer Science

- Some Rhino Software experience with HKUST Digital Design Course

Workshop and CAD/CAM

- Skilled in Fusion 360, SketchUp, and other CAD design softwares
- Skilled operator of laser cutters and 3D printers, woodworking tools, and machining equipment.

Personal and Social Media Photography

- Hobby; documenting travel with photography and sharing on social media.
- Self-taught; limited equipment – SONY a5100.

Fundamental VsCode (Java) and Arduino programming.**Microsoft Office Suite & Excel****Google Workspace Apps**
